

## **Mission statement**

---

Our aim is to construct long term, stable and profitable relationships with clients, the foundation for which is our commitment to hard work professionalism, high standards of ethical behaviour, and concern for the environment.

We wish to enjoy our dealings with candidates and contractors based upon mutual respect, honesty and openness.

To achieve these goals it is necessary to make a 100% commitment to support and develop our own staff at whatever level they make their contribution to PeopleCo.
