Betfair

PeopleCo have been working with Betfair since early December 2004 and have been supporting us in the recruitment of key hires in the Business Process and Engineering departments. The organisation has undergone significant growth in the last 18 months but has been expanding aggressively in the last 6 months culminating in a 150 person increase in head count across the two departments. In order to achieve this growth in a speedy yet controlled manner we have been using specialist suppliers capable of providing high value, technically capable individuals on a consistent basis. I would rate PeopleCo as a key part of our recruitment success during this time period. David Wingate and his team have been instrumental in helping Betfair achieve these far reaching growth targets and have successfully secured people with skills and experience that we know are not always readily available. I find PeopleCo to be very professional in their approach and they have built an open and honest working relationship with the recruitment team. PeopleCo are not just a recruitment agency but are considered a strategic resource partner essential to the continued growth of Betfair Engineering capability

Barry Bone - Engineering Recruitment Manager

CPP

PeopleCo has been our preferred IT recruitment supplier since April 2005. Since then they have built an excellent relationship With Our team and consequently have a thorough understanding of the business and its relevant departments. They not only find candidates with the necessary skills but also those who will be a good team fit for CPP.

Only relevant CVs are sent for short listing and when candidates arrive for interview they are fully briefed on the company. I feel that CPP takes priority and Amy, Our consultant, always makes herself available to work on our requirements. I feel they achieve the right level of Contact with us and we are constantly informed on progress without being chased. I would have no hesitation in recommending PeopleCo.

Gemma Douglass - Resourcing Adviser

Surrey County Council

We have employed the services of People Co Worldwide Ltd within Surrey County Council for the last year. In that time they have been very supportive in finding the right staff with skills to support the delivery of our major transformation project including the implementation of SAP. Although as an organisation we deal with many agencies, PeopleCo do not send through masses of CV's but however carefully screen them based on the profile/skills requested from the outset. The staff at PeopleCo are always on hand to help us, plus are nice people to deal with.

David Rees - ICT Stream Leader

Imerys

Just to let you know that Steven has now completed his contract and moved to pastures new. He did a good job on both of the projects and I have offered him references should he need them. We don't have anything on the immediate horizon but I'll keep in touch and you can rest assured that if a need arises I will be back to you. Many thanks for the excellent service, we certainly appreciated your support.

John Hodkin - Senior Manager IT-Europe

I am writing to say thank you for all of your assistance in our recent recruitment drive for SAP HR and Payroll consultants. Your response to our requirements was very impressive and the calibre of candidates submitted for consideration was excellent. This saved us a considerable amount of time sorting the wheat from the chaff. The consultants we appointed have fitted in well with the Pecaso culture and are currently busy working on projects across the UK. I will have no hesitation in contacting you when future requirements arise in 2006. It has been a pleasure to work with you and your colleagues, your professionalism and courtesy have been a refreshing change.

Lawrence Donaghy - HR Manager

CODA Financial Intelligence

CODA Plc have worked with PeopleCo for a number of years and have found their service to be professional and reliable at all times. They have assisted us in the placement of Software Developers, Testers, Business Analysts and other technical personnel. They continually send a high standard of CV's and regularly get candidates to interview and second interview stage. Throughout my dealings with David Wingate at PeopleCo, I have found them extremely reliable and knowledgeable in their field. When we hold agency briefings they ask relevant questions and ensure they are fully prepared and fully aware of the job spec. We have no problem with the candidates they send through, and those that get to interview stage are always fully aware of what the company does and fully briefed on the job spec. We have no problem with recommending PeopleCo to you, and will continue to use them in all our recruitment.

Centrica

I am pleased to put on record that I have worked with PeopleCo over the past 2 years for filling permanent vacancies. The standard of candidates that PeopleCo have provided has been excellent and they have helped us in filling a vast number of challenging roles within the IS environment with a number of rare skills. I have also been very impressed with the relationship that PeopleCo have with their candidates, they are completely in touch with them and are sensitive to their requirements and career progression. I have been very impressed with all the members of the team at PeopleCo and am never concerned when my main contact there has been on holiday. The communication within their office ensures little impact on their customers. I cannot recommend them highly enough. Many thanks PeopleCo and I look forward to OUT ongoing working relationship.

Anne Main - Resourcing Manager

Howmet Ltd

I have dealt with PeopleCo for the last 12 months. In an industry where the level of service and commitment is generally poor, I have found that these individuals strive to fully understand my requirements and match them with pre-screened and fully referenced candidates. I shall continue to deal with them as quite simply they make my life easier.

Catalyst Solutions

PeopleCo has worked tirelessly to find us the right Consultants for our project:

- Every candidate met the specified criteria
- They supplied three times the number of candidates than all of their competitors combined
- They worked across weekends and were always available either on e-mail or on the phone
- They travelled round the country to ensure that the chosen candidates were "signed-up" and were happy with our proposals
- They have remained 'engaged' with us and continue to have close contact with ourselves and the Consultants

PeopleCo have always been very responsive to our recruitment needs whether on a contract or permanent basis and always produced a number of good quality candidates within agreed timescales. The level of service which they offer is consistently high and is a true reflection of the hard work that their consultants put in. PeopleCo have taken the time to get to know Xayce as a client, which allows them to better understand the culture and ethos of our organisation and therefore ensures that the type of candidates submitted are always fully briefed and well informed and also ensured that we attain a much closer match on CV's submitted.
